Helpful Information

Interest

Interest is calculated daily on the cleared balance of your account at the close of business. We'll let you know if interest is calculated on the statement balance rather than the cleared balance. The cleared balance includes only credits and debits that have cleared. Ask your branch or Barclays Business Team for details of clearance times and the dates when we pay or charge interest. The rates of interest shown are current at the time of printing this statement and may have changed during the period of the statement.

In accordance with UK tax legislation, from 6 April 2016 interest is paid gross. For UK resident individuals (including sole traders or partnerships), if you are a UK taxpayer you may have to pay tax on interest earned in excess of your Personal Savings Allowance. For information and guidance please refer to HMRC's website www.hmrc.gov.uk. The management of your tax affairs is your responsibility, including making any required declarations to the relevant tax authority(ies), where you are tax resident.

If the statement shows that we have applied interest to your account, we'll give you on request details of the rate(s) of interest used and a clear explanation of how the interest was calculated. Details of Barclays interest rates for business customers are available at barclays.co.uk/businesstariffs.
